The crag of Placchissima Barraxiutta offers beautiful slab routes, mainly friction climbing with little holes.

**Avvicinamento:** From the center of Domusnovas follow Cagliari street in direction Musei, once you left Domusnovas, you come to a roundabout, take the third exit (not Musei and Vallermosa) and continue on the main route, pass the deviation for the San Giovanni's Cave and after some meters the road becomes dirt. After a few kilometers, near a curve you can see Technicolor Crag on the left. Shortly after you pass a junction with a road that bends to the right, continue on the main until you see the crag top on the right. Park in a small clearing, cross the stream and identify the stone figures that indicate a steep trail which leads to the crag.
